EXTERIOR ELECTRIC

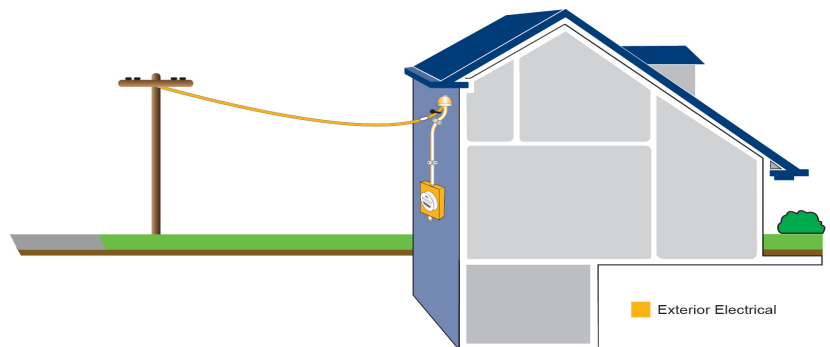

A home's exterior electrical wiring includes a number of complicated parts, including attachment wiring, the outside meter box and the wiring from the meter box to the electrical panel. If a problem happens, finding qualified help for emergency repairs can be time-consuming and expensive. Over 141,000 US homeowners have this coverage, which has saved policyholders over \$3 million in repair expenses over the last three years.

PRODUCT FEATURES

- Coverage includes emergency breakdown repair or replacement costs of weatherhead, insulator, riser, meter base, service entrance conductor, and underground service
- High-quality repairs made by a licensed technician that comply with the most current rules and regulations, including specifications for materials
- Cost and filing of permits, as required, are included

DIFFERENTIATORS

- Never any deductibles, call-out fees or pre-inspections required
- 24/7/365 live operators for claims and fast call-back and dispatch time – contractor will be on site within 3 hours for emergencies
- One-year guarantee on all covered repairs
- Optional enhancements: Fixtures and fittings, <80 amp service coverage, garage extension

* Coverage can be customized according to Partner requirements and specifications.
