Product Rating  
4.5 out of 5  
★★★★★

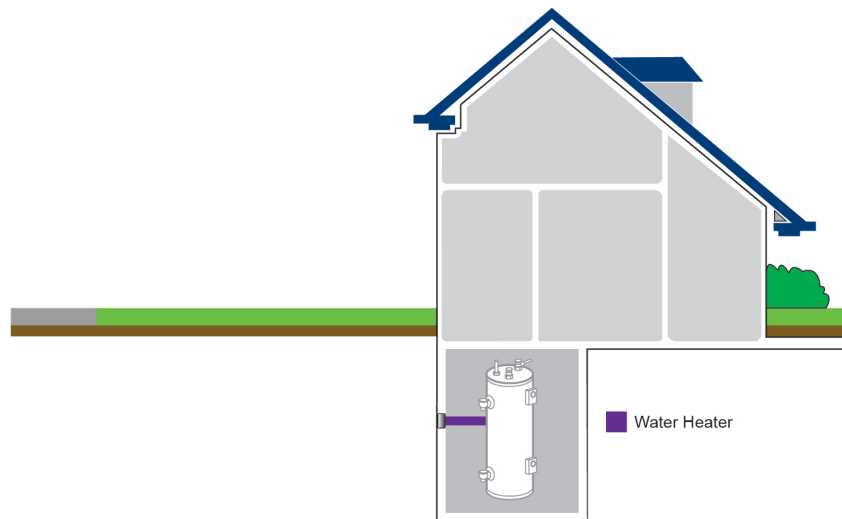

Hot water heater problems are a major inconvenience that can cause a shortage of hot water for showering or washing and noise and odor due to sediment build-up. Repairs can be time-consuming and costly. Over 304,000 US homeowners have this coverage, which has saved policyholders over \$22.8 million in repair costs over the last three years.

## PRODUCT FEATURES

- Coverage includes the emergency breakdown repair/replacement of most major parts of tank-based electric, natural gas, and propane systems. (Higher-level plans also cover tankless water heater systems)
- Covered gas water heater parts include: burner supply tube and assembly, drain and gas valves, main burner, pilot light, temperature control, thermocouple, T/P relief valve
- Covered electric water heater parts include: drain valve, lower and upper thermostat, lower and upper element, T/P relief valve
- High-quality repairs that comply with the most current rules and regulations, including specifications for materials
- Full replacement product available

## DIFFERENTIATORS

- Never any deductibles, call-out fees or pre-inspections required
- 24/7/365 live operators for claims and fast call-back and dispatch time – contractor will be on site within 3 hours for emergencies
- One-year guarantee on all covered repairs

\* Coverage can be customized according to Partner requirements and specifications.
